

CLIPSAL

COLLECTION

CLIPSAL
LIVING ELECTRICAL

Desire our powerpoints as much as our switches.

Accessorise with style

C-Bus Saturn™, the world's best looking light switch now has a powerpoint to match.

Introducing the new addition to the stunning Saturn Collection. Clipsal's distinctive new 4025 Saturn 250V Twin Powerpoint is perfectly matched to the other accessories available in the Saturn Range, including Clipsal C-Bus home automation products, giving your home a seamless look and an enviable style. However, you don't need a C-Bus system to enjoy Saturn powerpoints. As these are 250V mains powered you can install them anywhere you need to, whether you have a C-Bus system or not. Isn't it wonderful when everything just comes together? Nothing is more satisfying than achieving the perfect style, the perfect finish – the perfect look.

Hard working fashion

Manufactured from premium quality scratch and chemical resistant material, you'd be forgiven for thinking the 4025 was pure glass. The elegant glass look complements popular modern surfaces such as granite bench tops, and the hardwearing finish makes the powerpoints ideal for kitchens and bathrooms.

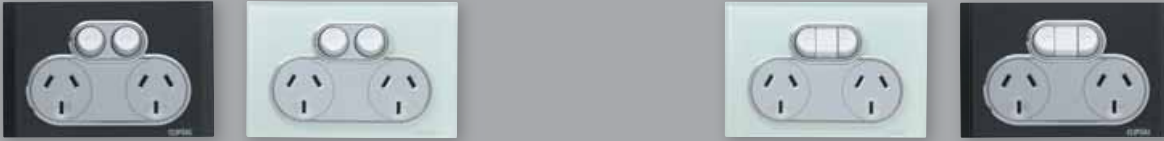

Behind the scenes

The impressive fascias are backed with all the innovative design features that you've come to expect from Clipsal. The outlets are supplied with black mounting grids as standard, and mounting frames in various colours can be clipped onto the grids to cater for multiple colour alternatives. Attention to the finest detail is evident throughout the 4025. You'll notice the little things such as the centrally placed round switch mechanisms finished in Arctic Silver, reflecting the latest trends in design.

Show off your sense of style with the perfect accessory from the Saturn Collection.
