

ES200/ES2000

The ES200 / ES2000 electric strikes are high security products manufactured from solid stainless steel and designed to be used with local and remote access control systems.

Both strikes are suitable for use with any access control system using hinged doors which require either fire or security control as part of a building management system.

ES200
Non-monitored

ES2000
Monitored

Power to Lock / Power to Open

Changeable on-site

Government Approval

Australian Government listed

Easier Installation

Door frame penetration only 27mm

Low Current Consumption

Max 175mA at 12 Volt DC - 88mA at 24 Volt DC

Optional Mounting Kit

Reduces installation time

One Piece Cast Stainless Steel Body

Engineered with very few parts the ES200/2000 is extremely robust and can withstand the harshest environments.

Dual Monitoring

The ES2000 has both solenoid and latch/door monitoring

Continuously Rated Solenoid

Solenoid can be continuously powered

Installation Template

Easy to use stick-on template for faster installation

High Security

*Tamper resistant to all known techniques
Keeper secured by three hardened locking pins*
